Previous walks:

February 2012

A walk from the Bloody Bridge car park was scheduled but proved to be an inconvenient date as most of the would-be walkers were unable to attend. With bad weather forecast the 3 survivors decided to walk the mountain trail in Tollymore forest park and as luck would have it we completed the walk about 10 minutes before heavy rain set in for the rest of the day.

January 2012

Walking to Ott Track in the Mournes. Bobby really made our day when he produced a camp stove, frying pan and sausages which were a sight for sore eyes. The crack was good, educational and full of fun.

November 2011

A walk on the Trassey track to Hare's Gap and part of the Brandy Pad
